## **SAFETY RETRACTABLE WITH D-RING DEVICES**

This is to confirm that it is acceptable to use all of the D-Ring extenders models/types, which are offered by ULTRA-SAFE in conjunction with a leading edge/sharp edge safety retractable devices that are manufactured and produced by ULTRA-SAFE / IKAR. This has been a common practice for several end users out in the field. It is always important to calculate your distance, so as not to hit a lower level. For more information go to our website and view our video #28.
